

Module 10: Sample Outline

1. Title and Name
 - Title: Why are the polar bears getting all of the press?
2. Introduction
 - Statement: Are polar bears the only animals at risk to global temperature rise?
 - Next I will include a few sentences exploring the above statement
3. Hypothesis (Null and Alternative)
 - I hypothesize that there are more animals who are at risk due to the rise in global temperatures.
 - I hypothesize that polar bears are the only animals who are at risk due to the rise in global temperatures.
4. Data Gathered
 - I will gather data using the following sources (list sources)
5. Conclusion
 - I will state whether hypotheses were accepted or rejected, why, and what the data is saying, and any other interesting findings we uncovered during our research.
