

Biology 003 Tutorial Worksheets

Tutorial #1: “Life and Natural Selection”

- A. “Life” is a complicated idea to define. What is a basic or simplified definition?
- B. Try to find examples that are contrary to this definition yet are still considered “life”.
- C. List Characteristics that are used to define “life” (for example, “reproduction”).
- D. In your own words, describe natural selection. Try to find an example in the tutorial and also describe one you can think of on your own (real or imaginary).

Tutorial Example:
(Found on Pages _____ or at _____)
